

REFRESH YOUR BRANDSCAPE

TriLusion[™] Display Systems have the unique ability to fuse three graphic images into one space, mimicking lenticular printing. These displays respond to the growing demand for engaging and impactful messaging/branding opportunities.

The system is designed, printed, and fabricated utilizing state of the art manufacturing processes. The end result is a three dimensional display that allows you to view 3 different messages from 3 different directions. TriLusion[™] Displays can be configured to varying sizes and shapes to fit your feature wall dimensions.

Series of panels installed to backboard
