

FILE SETUP GUIDELINES

WALL GRAPHICS

- .ai, .indd, .idml, .eps, .psd, .pdf files preferred. *Please contact us if you would like to send another file format.*
- CMYK Color Mode. *If Pantone color-matching is needed, please speak with your project manager or notify our art department.*
- 3" of bleed is preferred around all sides of document.
- Final art resolution should be 100 dpi at full scale (*ex. 1/4 scale = 400 dpi*)
- If scaling is necessary, specify scale in file name or within document.
- High-resolution (PDFx1a) PDF of final art including bleed. DO NOT include crop marks or a trim line.
- Working files may be requested as needed. Outline all fonts, embed all links, or package your files including fonts and links required to print your document. Also, include a low-resolution PDF of final art for reference.

*If you have any questions or concerns about file setup, please call us at **800.516.0105** and ask to speak with someone in our art department.*
